

Reforestation Project
San Lucas Tolimán
Guatemala

21 May 2021

Friends of the project, I send you many greetings from the family of forestation, hoping that you enjoy good health and blessings from the Creator.

Dear friends, I am very grateful for all the support and the donations that I receive every month. They have helped me to keep alive the project of forestation during the year 2020 and these months of 2021, when it has been a little difficult to work with the youth of the community because of the Covid-19 pandemic.

The work has not stopped during this time, and we are preparing fruit trees for when we can go with the children to plant them, so that they will know the importance of the fruit trees. Also, we are working with recycled bags, made of wood and paper, and making compost for the family vegetable gardens, which are entirely organic.

Thank you for all your collaboration, and we hope that very soon you all can visit San Lucas Tolimán in Guatemala.

Sincerely,
Toribio Chajil Ajacalon
