2. I will take responsibility for overall coordination of the three groups
3. Meeting of all three groups on Saturday May 5th 10 am-noon
4. What to ask people in the work groups to do for the May Meeting
 - I am preparing a list of housing options (buy and rent) near Seekers. Pat has given me a lot of work that he did in the past. I was thinking of circulating that list to members of the NORC work group for additions and then presenting it at the May 5th meeting
 - Marjory has already had several promising conversations with others from Church of the Savior
 - The multigenerational housing group situation is most delicate because we don't want people go around talking about how Seekers wants to buy property. Probably the best thing is to make sure that inquiries go through Peter.
5. Are there any guidelines of principles that Stewards wants to establish as we go forward with this?
